

РЕСУРСОЗБЕРЕЖЕННЯ ТА ЯКІСНЕ ВОДОЗАБЕЗПЕЧЕННЯ – СТРАТЕГІЧНИЙ НАПРЯМОК РОЗВИТКУ ВОДОПРОВІДНО-КАНАЛІЗАЦІЙНОГО ГОСПОДАРСТВА УКРАЇНИ

Dear Martin

An active dialogue of all sides of civil society is the necessary condition for its development.

A perfect community, a city is impossible without an effective dialogue, experience exchange, the introduction of best practices.

In order to consolidate the efforts aimed at community development in Ukraine from 06 of February to 11 of February 2018, the 1st International Economic Forum "Smart City and Ecosystem" and the XIII International Scientific and Practical Conference "Resource Saving and Quality Water Supply - Strategic Direction of Development of the Water Supply and Sewerage Facilities of Ukraine".

A comprehensive approach to the most important problems of the city economy, the urgent issues of the environment makes it possible for all of us to quickly find the right decisions.

The forum's task is to unite the potential of its participants precisely in solving the key tasks that are put before everyone, and each separately, the modern world. The world in which everything is changing very rapidly, new challenges arise promptly, it needs to make quick, effective and professional decisions. The Forum's task is to create conditions for this.

The Forum invites participation, heads and specialists of local self-government bodies, politicians, representatives of central executive authorities, communal enterprises, representatives of business, science, public organizations and their associations, professional associations, as well as all those who are interested in developing a developed civil society, effective business, careful attitude to natural resources and ecosystems, harmonious community development. The atmosphere should help eliminate unnecessary barriers in communicating managers and specialists of different levels, building creative potential, expediting the search for new and effective solutions.

The main topics of the forum are innovations in urban infrastructure, energy saving and renewable energy sources, water supply and drainage, heat supply, housing management, environmental issues, and other.

We are warmly inviting you to personally to support the organization of this forum and take part in it.

The participation fee per person is 190 EUR - for utilities and associations representatives; 330 EUR - for business representatives. Participation fee includes the package of participant, participation in events (exhibition, round tables, meetings, sessions) coffee breaks, lunches and dinners.
