

Newsletter – September 2019

Dear project partners, below you find a short summary of the status of our project.

- The 2nd report is approved after some rounds of clarification during the late summer and we expect the next payment very soon.
- The successful operation of the pilot plant in Slagelse continues. The plant and some results will be published by the Danish water and wastewater association in DANSKVAND in October.
- In Kretinga the design process is ongoing with installation and start-up planned for beginning next year.
- The pilot in Svedala is partly up and running and a lot of exciting lab experiments has been done in connection to that.
- A method for analysis of Benzotriazol has been developed and is now incorporated into the list of organic micropollutants being analysed in the project.
- Improvements have been made in the analytical procedures meaning that the risk for contamination is reduced and that from now on only 50 ml is needed.
- We have a new contact person at the Joint Secretariat, Mate Szalok. Welcome!
- Mid-term review with JS was completed earlier this month.
- Åsa & Michael will attend the Interreg annual event in Ostroda, 24-25 September.
- Sweden Water Research made a movie about the pilot in Svedala. Starring Simon Gidstedt! <https://vimeo.com/353996016>

- Don't forget to sign up for the "Pharmaceutical expert cluster LESSisMORE" on LinkedIn.
- The Less is more project will be presented at the NordIWA conference (by Simon) 23-25 September in Helsinki.

Reminder about coming meetings and events

- 3rd Stakeholder Meeting, Lithuania, March 2020
- National Events in Poland (three events will be arranged by GWF in 2020):
 - 1st – project presentation (incl LP)

- 2nd – half day event (representatives of each pilot plant)
- 3rd – September 2020 – national event + final project conference (All PP)
- Possibility for dissemination of project results at the IWA World Water Congress & Exhibition - Water for smart liveable cities, 18 – 23 October 2020 in COPENHAGEN, DENMARK. Deadline for sending in abstracts 30 October 2019, <https://worldwatercongress.org/>

Reporting

Coming reporting deadlines are: 15 Oct 2019, 15 April 2020 and 15 October 2020. More info to come.

If you have any questions don't hesitate to contact us.

Åsa & Michael
